CAREER OBJECTIVE

I am seeking a position where I can utilize my unique work experience. I am searching for a company that values diversity and works hard to develop a team of highly motivated people who work well together. I value customer experience as a priority and thrive on embracing new challenges with enthusiasm.

PROJECTS

Fax For Gaza — *Representative Lookup using Google API*   App

A website to look up local and state representatives using Google Civic Information.
React frontend with Context, TailwindCSS for styling, Google Civic Information API, and PDF generation.

Sell It! — *User-to-User eCommerce Site*   Github   Demo

An eCommerce site specializing in user-to-user audio equipment and instrument sales.
React Redux frontend with TailwindCSS for styling, Rails backend with PostgreSQL.

Movie Rental App — *Ruby on Rails, React, PostgreSQL*   Github   Demo

An app that allows users to securely log in, rent and return movies, and add their movies to the database.
Implements Context for user and movie data for a centralized provider of state information.
